1844 Johnson County Ky Tax List

1844 Johnson County Kentucky Tax List

This tax list was the first to be taken after Johnson County was formed, and this list was compiled and checked for errors, by using three copies, including the original found on microfilm. This tax list includes the Taxpayer's name, the number of acres of land, the Water Course it was on or near, the value of the land, and a census of white males over the age of 21 and children ages 5-16. Most of this is an index only. I will try to get the entire tax list placed in the archives at a future date.
